DEPARTMENT OF THE NAVY
OPERATION AND MAINTENANCE, NAVY RESERVE
JUSTIFICATION OF ESTIMATES FOR FISCAL YEAR 1996/1997

INTRODUCTORY STATEMENT

This appropriation provides for the cost of operating Naval Reserve forces and maintaining their assigned equipment at a state of readiness which will permit rapid employment in the event of full or partial mobilization. Concurrently, the Naval Reserve's mission is to complement the active force through contributory support. In FY 1996/FY 1997, the Naval Reserve will remain closely linked with the active Navy and will provide greater real-time, everyday services.

The Naval Reserve operating force consists of aircraft, ships, combat support units, and their weapons. The cost of operating and maintaining aircraft in the Fourth Marine Air Wing is also contained in this appropriation. The FY 1996/FY 1997 planned average operating aircraft inventory is 445/458. The planned FY 1996/FY 1997 end year Naval Reserve force ship inventory is 21/25. Further description of these assets is given in their respective activity groups.

The Operation and Maintenance, Navy Reserve appropriation consists of two budget activities: 1 - Operating Forces, and 4 - Administration and Servicewide Support. Operating Forces (BA 01) funding provides for the operation and maintenance (including depot) of Reserve force ships and aircraft. In addition, funding to operate and maintain air stations, Reserve centers, and Reserve facilities supporting the Naval Reserve forces is included. Administration and Servicewide Support (BA 04) encompasses the funding support for various command and administrative activities.

All available audit savings have been incorporated into the following budget estimates.

Department of the Navy
Operation and Maintenance, Navy Reserve
FY 1996/1997 Budget Estimates

Budget Activity: 1 - Operating Forces

I. Description of Operations Financed. This budget activity provides funds for the operation and maintenance of Naval Reserve Force ships, the operation and maintenance of Navy and Marine Corps Reserve Force aircraft, and the operation of other Reserve Combat Support units including Mobile Inshore Undersea Warfare Forces, Naval Reserve Fleet Hospitals, Reserve Naval Construction Forces, and Cargo Handling Battalions. Additionally, this activity provides funds for weapons maintenance.

II. Force Structure Summary. The Naval Air Reserve Force consists of one carrier air wing with a total of eight squadrons, two long-range ASW patrol wings with a total of nine squadrons, one helicopter wing with eight squadrons, one air logistics wing with twelve squadrons and three detachments. The Fourth Marine Corps Air Wing (4th MAW) consists of seventeen flying squadrons and supporting units which are budgeted for and maintained by Commander, Naval Reserve Force.

The Naval Surface Reserve consists of Combat Operations Support and Special Combat Support Forces. Combat Operations Support Forces consist of Naval Reserve Contingency Engineering Program Units and Naval Facility Construction Units (SEABEES), Security Group, and Ordnance Handling Activities (Explosive Outload Teams). Special Combat Support Forces include Mobile Mine Assembly Groups, Amphibious Construction Detachments, Assault Craft Units, Mobile Undersea Warfare Units, Cargo Handling Battalions, Explosive Disposal Units, Navy Beach Groups, and Mobile Diving and Salvage Units.

The following table compares year end ship inventory of FY 1994 through FY 1997:

Hull Type	FY 1994	FY 1995	FY 1996	FY 1997
CV	0	1	1	1
MCS*	0	1	1	1
FFG	16	14	10	10
LST	0	2	2	2
MHC	0	1	3	7
MCM	0	2	4	4
	==	==	==	==
Total Naval Surface Reserve Force	16	20	21	25

* The MCS is in conversion status during FY 1995 and is not considered part of the ship count.

DEPARTMENT OF THE NAVY
OPERATION AND MAINTENANCE, NAVY RESERVE
FY 1996/1997 BUDGET ESTIMATES

Budget Activity: 1 - Operating Forces
Activity Group: Air Operations

I. Description of Operations Financed. This budget activity provides funding for all aspects of Navy and Marine Corps Reserve air operations from flying hours to specialized training, maintenance, and associated support. Programs supporting Reserve Air Operations include flying hours (fuel, consumable, and AVDLRs), Range operations, Specialized skill training and associated administrative support, Intermediate and Depot level maintenance and associated support, and Operational support such as command and control. There are five primary activity group components which fund Naval Air Reserve requirements:

Mission and Other Flight Operations - Includes all Navy and Marine Corps Reserve Tactical Air (TACAIR) and Anti-Submarine Warfare (ASW) forces and shore based logistical fleet air support. These funds provide flying hours to maintain an adequate level of readiness enabling Reserve aviation forces to perform their primary mission (as well as contributory support) capability. Primary mission readiness (PMR) is expressed as a percentage and reflects the amount of hours aircrews must fly to perform the primary mission of a particular type/model/series (TMS) of aircraft. The peacetime PMR goal of 87 percent (including simulators) has been budgeted. Squadrons are programmed 130 hours per crew annually to attain and maintain their readiness goal. Flying levels for logistic aircraft (C130, C9, DC9, C12, C20, and T39) are based on a distinctive monthly utilization factor not on an annual crew training requirement. Contributory support services are provided to the fleet in several mission areas including Fleet Training Readiness Group (FTRG), Fleet Adversary Training, Combat Search and Rescue (CSAR) requirements, Vertical Onboard Delivery (VOD), minehunting missions, and logistics support. The FTRG mission provides electronic warfare training to the fleet by simulating the electronic warfare threat and teaching electronic countermeasures (ECM) for fleet operators. Fleet Adversary training provides fleet aircrews the opportunity to refine their air combat maneuver (ACM) skills and keep abreast of the latest information in the tactical environment. Reserve helicopter fleet support missions include CSAR for Special Operations Forces or the CV Battle Group, VOD, crisis response minehunting assets, torpedo retrieval, and carrier qualification support.

Intermediate and Depot Level Maintenance - funds the maintenance and repair of Reserve aircraft and engines, and other aircraft support as described below:

Budget Activity: 1 - Operating Forces
Activity Group: Air Operations (Continued)

A. Airframe rework: This program funds depot level maintenance and rework for Reserve Force aircraft. Through periodic return to depot level maintenance activities, aircraft major structures and airframes systems are maintained in a safe, flyable condition on the basis of cost over the airframe useful life. The Aircraft Service Period Adjustment (ASPA) program adjusts individual aircraft period end dates for selected aircraft when material condition warrants. Under ASPA guidelines only aircraft that upon inspection cannot safely be extended for another 12 month tour are inducted in the depot for Standard Depot Level Maintenance (SDLM). Under the SDLM program, maintenance is performed only to the level that is technically justified and cost effective. The Navy has implemented a strategy that includes competition for depot maintenance workload between the Naval Aviation Depots and commercial activities. It is Navy's policy to promote competition between the Naval Aviation Depots and private industry as a means of improving performance and reducing total costs. Selected competitions will be conducted above the essential base for the alteration, overhaul, and repair of aircraft.

B. Engine rework: This program accomplishes the repair, modification, and overhaul of aircraft engines, gearboxes, and torque meters installed in Reserve aircraft. The program objective is to return depot-repairable engines to ready-for-issue status to support reserve engine pool requirements. Under the Engine Analytical Maintenance Program (EAMP), engines are repaired at the lowest echelon of maintenance. Only engines that are beyond the repair capability of intermediate maintenance activities are scheduled for induction in the depots. Depot-level maintenance may also be performed concurrent with aircraft SDLM if such maintenance is operationally necessary and cost effective. Engine field team assistance is included in this budget submission to provide on-site depot level maintenance on an as-needed basis.

C. Aircraft Support: Provides unscheduled depot level services to Reserve activities and enhances operational readiness by providing expeditious solutions for the correction of unplanned depot maintenance problems incurred in the field. Air Traffic Control funding provides depot level services to Reserve activities for repairs and overhauls of navigational and IFF equipment in support of the Reserve fleet.

D. Contractor Support Services: Supports the training of aviation maintenance personnel at the organizational and intermediate levels to assure in-house capability and maintainability of assigned aviation systems and equipment and to maintain Naval Aviation readiness. This training has a direct effect on the improvement of Reserve individual unit readiness. Services are provided by commercial/industrial companies which provide advice, liaison, on-the-job, and classroom training to Naval Air Reserve activities aviation maintenance personnel in the installation, maintenance, repair, and operation of all types of aviation systems and equipment.

Budget Activity: 1 - Operating Forces

Activity Group: Air Operations (Continued)

Base Support: The objectives of the Naval Reserve shore installations are to provide responsive services to Reserve forces and assigned activities; ensure updated capability for maintaining personnel skill proficiencies; maintain and protect investments in facilities, equipment, weapons, and weapon systems; provide adequate personnel services; meet acceptable standards of habitability, health, and safety in living and work areas; and effectively manage resources for proper and efficient utilization, including the protection/enhancement of the environment and conservation of natural resources.

Funds provide material supplies, facilities, services, and logistic support to Naval Air Reserve squadrons and aviation support units. The operations financed are comprised of:

- (1) Operating Aircraft Intermediate Maintenance Departments (AIMDs).
- (2) Administrative functions related to financial/resource management and automatic data processing (ADP) functions.
- (3) Supply functions/tasks including procurement, receipt, storage, and issue of bulk liquid fuel.
- (4) Maintenance of material functions such as major/minor repair and preventive maintenance of service craft.
- (5) Medical and dental functions.
- (6) Base operations functions/tasks such as security and air operations services.
- (7) Purchase, produce, and distribute utilities.
- (8) Other engineering support includes Public Works Departments administration, engineering services, custodial services, refuse/garbage collection and disposal, snow removal, movement of personal effects for military families, equipment inspection, and military family housing administration.
- (9) Personnel support; e.g., operation of food service facilities, BOQs, BEQs, Human Goals Programs, military Family Service Centers, and libraries.
- (10) Operation and maintenance of Civil Engineering Support Equipment (CESE).
- (11) Purchase and maintenance of training equipment.
- (12) Development and maintenance of training systems, methodologies, and curricula to meet the total training requirements of the Naval Reserve.
- (13) Maintenance of electronic equipment.
- (14) Procurement, installation, and/or relocation of equipment and furnishings necessary to initially outfit those facilities/structures being constructed or modernized under the Military Construction, Naval Reserve Program.
- (15) The administration of communications functions, operation and maintenance of rapid communications systems, telegraph, administrative telephones, telephone distribution systems, communications lines, wire equipment, toll calls, and operation of message centers.

Budget Activity: 1 - Operating Forces
 Activity Group: Air Operations (Continued)

II. Force Structure Summary.

The Naval Air Reserve Force consists of one carrier air wing with a total of eight squadrons (including two Adversary squadrons), two long-range ASW patrol wings with a total of nine squadrons, one helicopter wing with eight squadrons, and one air logistics wing with twelve squadrons. The Fourth Marine Corps Air Wing (4th MAW) consists of seventeen flying squadrons and supporting units which are budgeted for and maintained by Commander, Naval Reserve Force.

10. Functional Transfers 939

A. Transfers In	(1,832)
1) Intra-Appropriation	0
2) Inter-Appropriation	1,832
a. Decentralization of Naval Facilities Engineering Command funding for the execution of O&M,NR funded repair, maintenance, minor construction, environmental compliance and facilities service contracts.	1,302
b. Decentralization of DSN payments.	530
B. Transfers Out	(-893)
1) Intra-Appropriation	0
2) Inter-Appropriation	-893
a. Transfer of APTS functions at NAS Dallas and NAS Willow Grove to NCTC.	-773
b. Transfer of Personnel Property Shipping Office functions from NAS Atlanta to Ft McPherson, GA.	-120

11. Program Increases 61,376

A. Annualization of FY 1995 Increases	(0)
B. One Time FY 1996 Increases	(0)
1) Increase associated with full funding required to for 87% primary mission readiness. During the current year it is intended that this funding will be reprogrammed into the flying hour program.	(28,860)
C. Other Program Increases for FY 1996	(32,516)
1) Accommodates flight hour increases for the following Type/Model/Series:	23,030
a. The E-2C for the standup of VAW-77 for drug interdiction operations.	
b. The HH-60H forces increase for 15 to 16 aircraft.	
c. The addition of F-5 aircraft to fulfill the adversary mission requirement.	

(S000)

d. The addition of C-130 flight hours from POM-96 initiatives to fulfill IN/OUT/CONUS Navy logistics requirements.	
e. Marine Reserve F-18 flight hours for Marine Airwing intergration and the additional requirement for Carrier Qualification.	
2) One additional workday.	240
3) Bachelor Quarters - Implementation of CNO's bachelor quarters quality of life initiatives including "whole room concept" at all Naval Air Stations.	1,059
4) Increase supports all Level I and II Environmental Compliance including 27 environmental personnel.	5,505
5) Upgrade to the telephone/cable system at NAS New Orleans.	50
6) Naval Reserve costs of NAS Fort Worth JRB due to one year funding of existing contracts per agreement between the Navy and Air Force.	1,727
7) Change in investment threshold and centrally managed equipment.	58
8) Execution/Fact of Life Changes	
a. Intermediate Maintenance - Increased Engineering Technical Services (ETS) support for Rotary Wing. (Baseline: \$12,871)	208
b. Increased Depot Maintenance. Airframe Rework - Increased 1 Age Exploration and Air Worthiness Inspection costs. (Baseline: \$61,993)	590
c. Increased Customer Service and Customer Fleet Support Costs. (Baseline: \$362)	49
12. Program Decreases	-59,114
A. Annualization of FY 1995 Decreases	(0)
B. One Time FY 1996 Decreases	(0)

(\$000)

(-59,114)

C. Other Program Decreases for FY 1996

1) Flight hour reductions in the following Type/Model/

Series:

- a. SH-2 aircraft reductions for replacement with SH-60.
- b. P-3C flight hour reductions to accommodate the loss of one squadron in FY 1996.

-4,217

- c. VFC F-18A aircraft loss for due to transition to the F-5 aircraft.

2) NAR Whidbey AIMD draw-down.

-235

3) Recurring Savings Base Realignment and Closure - NAS Glenview

-12,476

4) Recurring Savings Base Realignment and Closure - NAR Memphis

-1,123

5) MRP - Minimal major repair to air facilities will be accomplished.

-10,534

6) Decrease for Separation Incentive for civilian personnel.

-202

7) Reduction of Base Communications and NALCOMIS.

-660

8) Reduction in contractor support for NALCOMIS.

-750

9) Execution/Fact of Life Changes

- a. Intermediate Maintenance - Increased Engineering Technical Services (ETS) support for Fighter, Antisubmarine, and Other aircraft. (Baseline: \$12,871)

-1,310

- b. Airframe Rework - Decreased 5 Airframes Standard Level Depot Maintenance, 5 Airframes Standard Level Depot

-13,442

- Maintenance/Modifications, 2 Air Worthiness Inspection, Emergency repair costs and Aircraft Service period Adjustment inspections. (Baseline: \$61,993)

- c. Engine Rework - Decreased 9 Engine Overhauls, 66

-14,165

- Engine Repairs, 24 Gear Box and Torque Meter Overhauls, and 2 Gear Box and Torque Meter Repairs. (baseline: \$28,549)

DEPARTMENT OF THE NAVY
OPERATION AND MAINTENANCE, NAVY RESERVE
FY 1996/FY 1997 BUDGET ESTIMATES

Budget Activity: 1 - Operating Forces
Activity Group: 1A Ship Operations

I. Description of Operations Financed.

The missions and objectives of the Naval Reserve Force (NRF) ships are to train Selected Reservists, to augment regular naval forces, to conduct operations to ensure control of the sea, and to provide combat ready ships in support of national objectives. In FY 1996 the year end inventory of NRF ships will be 21 and in FY 1997 it will be 25. There are five primary activity group components which fund NRF requirements.

Mission and Other Ship Operations - provides fuel, utilities, repair parts, OPTAR, travel funds, and funding for administration and staff support. Operating tempo of 18 days per quarter is programmed for all NRF ships except the aircraft carrier which will have an OPTEMPO of 31 days per quarter.

Intermediate Maintenance - funds ship maintenance which is normally performed by Navy personnel on tenders, repair ships and Shore Intermediate Maintenance Activities (SIMA). Intermediate Maintenance Activity (IMA) personnel perform maintenance aboard customer ships and also remove equipment for repairs in IMA facilities. SIMAs also assist in the accomplishment of organizational level maintenance deficits that result from unique Active duty/Selected Reserve crew composition aboard Naval Reserve ships. The organizational level shortfall is compounded by reduced authorized crew sizes and more sophisticated equipments/systems aboard the newer NRF ships.

Depot Maintenance - funds two specific areas: Restricted/Technical availabilities and LO-MIX Support. The Restricted Availabilities/Technical Availabilities (RATA) program funds both scheduled and emergent depot level maintenance of NRF ships. A restricted availability (RA) is for the accomplishment of specific items of work by a repair activity, normally with the ship present, during which period the ship is rendered incapable of fully performing its assigned missions. The RA category applies to Selected Restricted Availabilities (SRA) for FFG-7 class ships. A technical availability (TA) is for the accomplishment of specific items of work on ship equipment by a repair activity, normally without the ship present, during which the ship is able to fully perform its assigned missions. The LO-MIX Support Program develops and implements required life cycle support system changes to the NRF FFG-7 Class ships. Features of LO-MIX for active FFG-7 ships must be modified to accommodate unique characteristics (operating tempo, manning, homeport assignments).

Budget Activity: 1 - Operating Forces
Activity Group: Ship Operations (Continued)

Ship Operational Support and Training - funds the Maintenance Resource Management (MRMS) in support of the Navy Tactical Command Support System. MRMS improves efficiency and productivity of I-Level maintenance planning and execution. MRMS is the management system for ship intermediate maintenance of the Atlantic and Pacific Fleet. This funding is being transferred from Ship Intermediate Maintenance to Ship Operational Support and Training in FY 1995 to properly reflect execution in the new budget structure.

Ship Depot Operations Support - funds support fleet waterfront engineering service organizations. The Fleet Technical Support Center provides quick response to fleet requests for technical services and emergency assistance in resolving maintenance problems. Technical services include installation, operation, and maintenance of shipboard equipment and systems performed by in-house and contract personnel trained in engineering and technical disciplines. Fleet Technical Support Center only provides service on a job when beyond fleet or IMA capability. Onboard training is provided in conjunction with repair to preclude future visits.

II. Force Structure Summary. The following table compares year end ship inventory of FY 1994 through FY 1997:

Hull Type	FY 1994	FY 1995	FY 1996	FY 1997
CV	0	1	1	1
MCS*	0	1	1	1
FFG	16	14	10	10
LST	0	2	2	2
MHC	0	1	3	7
MCM	0	2	4	4
	<hr/>	<hr/>	<hr/>	<hr/>
Total Naval Surface Reserve Force	16	20	21	25

* The MCS is in conversion status during FY 1995 and is not considered part of the ship count.

5) Execution/Fact of Life Changes:

a. Net ship fuel/utilities increase associated with +57 OP months caused by Depot repair schedule and ship gains.	15,044
b. Emergent repairs increase associated with FY 1996 OP months of 144 vice OP month of 87.	10,403
c. Habitability support primarily for CV 67.	303
d. Scheduled depot maintenance IAW MCM/MHC/LST phased maintenance cycle.	7,436
e. Full year intermediate maintenance support for CV-67 after completion of depot maintenance availability.	1,236
f. CV 67(JFK) will require a major RAV in FY 1996 because of unique constraints on the FY 1995 ROH.	10,000
g. Other fleet planned maintenance increases reflect RAVs on FFG ships close to decommissioning and various CV maintenance strategies.	5,387
h. Increased ship utility consumption for FFGs scheduled for decommissioning.	41

11. Program Decreases

A. Other Program Decreases in FY 1996

1) Force structure changes

a. Reduction in support for the phased retirement of FFG 20 and FFG 21.	-1,731
b. Reduced funding for LST 1184 (USS Frederick) ship operations due to increased maintenance requirements.	-1,200
c. Reduced funding due to force structure decrease from 7 to 5 FFGs.	-1,171

2) Infrastructure changes:

a. Drawdown of on-board spares and consumables will reduce the repair parts inventory allowance.	-611
b. Reduction in Reserve Fleet Tech Assists (Baseline: \$1,570,000)	-146

-23,906

3) Strategy and Policy Changes:	
a. Savings from the use of Electronic Funds Transfer as the standard method for paying travel vouchers.	-1
4) Decrease in 31.5 organic workyears for repair of Naval Reserve Force.	-753
5) Execution/Fact of Life:	
a. Scheduled depot maintenance IAW FFG SRA/DSRA cycle (4 avails vice 2).	-10,205
b. The increase in the Intermediate Maintenance program represents a decrease in the amount of Manweeks and sites supported. (Baseline: \$2,554,000)	-1,639
c. The decrease in the Ship Depot Maintenance program represents a decrease of 1 reserve availability planning month. (Baseline: \$728,000)	-37
d. SSEO - Decrease reflects a reduction in the overhaul of the following equipment: three URT-23 HF transmitters, seven TT-624 (V) Teletypes, six RD-397B (V) 1 recorder-reproducers, four AS-3018A antennas, and four AM-6691A amplifier-filters.	-194
e. Decrease due to reduction in number of SRAs/DSRAs (-\$6,328,000) performed in FY 1996 and also a reduction in Emergent/Other Planned RA/TA (-\$1,336,000). The program decreases are both the result of reduction in FY 1996 force levels.	-6,198
f. NTCSS (formerly SNAP) - Decrease of effort to offset cost growth change. (Baseline: 658)	-20
12. FY 1996 Budget Estimate	157,940

Department of the Navy
Operation and Maintenance, Navy Reserve
FY 1996/FY 1997 Budget Estimates

Budget Activity: 1 - Operating Forces
Activity Group: 1C Combat Operations and Support

I. Description of Operations Financed.

This activity group is comprised of operational funding for combat support forces. Their mission is to provide combat ready forces for immediate deployment in time of full or partial mobilization. Concurrently, as directed in "Forward... From the Sea," they will provide significant contributory support to a variety of active combat support activities. The dual goal of readiness and contributory support is complementary and accomplishes the objective of maintaining adequate skill levels in highly technical specialties through training during weekend drills and active duty training.

Base Support costs necessary to train these units and maintain their facilities is included in this activity group. These costs include utilities, physical security, administration, ADP services, hazardous waste disposal, collateral equipment, maintenance of real property, audio-visual equipment, telecommunications, base services, installation equipment maintenance, MWR support, retail supply operations, and minor construction.

II. Force Structure Summary.

The Combat Operations Support Forces are composed of several distinct but related programs. The programs financed include Construction (SEABEES) Forces, Cryptologic Activities (Security Groups), Intelligence Training Activities, Ordnance Handling Support Activities (Explosive Outloading Teams), and Special Combat Support Forces.

The Special Combat Support Forces include Mobile Mine Assembly Groups (MOMAGS), Amphibious Construction Detachments, Beachmaster Units (BMU), Assault Craft Units (ACU), Mobile Inshore Undersea Warfare (MIUW) Units, Underwater Demolition Teams (UDT), Cargo Handling Battalions (CHB), Explosive Ordnance Disposal (EOD) Units, Navy Beach Groups (NBG), and Mobile Diving and Salvage Units (MDSU).

Department of the Navy
Operation and Maintenance, Navy Reserve
FY 1996/FY 1997 Budget Estimates

Budget Activity: 1 - Operating Forces
Activity Group: 1D Weapons Support

I. Description of Operations Financed.

This activity group encompasses funding for depot overhaul, maintenance, and modernization of specific Naval Reserve Ship weapons systems not included in the depot maintenance program portion of the ship operations activity group. Repairs are, however, normally accomplished simultaneously with the Type Commander scheduled maintenance availabilities of Selected Restricted Availabilities (SRA). There are seven categories of weapons rework financed within this activity group:

Sonar Overhaul and Mine Countermeasures (MCM) Equipment Maintenance Program - provides for depot level restoration/repair of transducers and hydrophones for sound navigation and ranging (SONAR), underwater communications, depth measuring equipment, versatile exercise mine (VEMS), and surface mine countermeasure equipment in direct support of all classes of Naval Reserve ships.

Gun Overhaul Program - provides for the depot level restoration/repair of Gun Weapon Systems on applicable NRF ships.

Antisubmarine Warfare (ASW) Systems Support - provides for depot level refurbishment of ASROC launchers and torpedo tubes installed on NRF ships. The program also provides for weapons systems accuracy trials (WSAT) associated with the ASW systems of NRF Frigates.

Missile Weapons System Equipment Maintenance - provides technical support and material services required for operation, maintenance, and installation of Missile Weapon Control systems and Guided Missile Launching systems. The program provides funding to rework MK 92 Fire Control System antennas, Combined Antenna Systems (CAS), and System Tracking and Illuminating Radars (STIR) for NRF FFG-7 class ships.

Test, Measuring and Diagnostic Equipment/Metrology and Calibration (TMDE/METCAL) - funds the calibration of electronic test equipment requirements on FFG-7 class ships for monitoring and maintaining the performance level of systems/equipments. TMDE is any device which measures, calibrates, gauges, tests, inspects, monitors, diagnoses, or examines the operating or physical characteristics of a system/equipment or materials/supplies.

Ship System Tactical Software Maintenance - provides for life cycle maintenance of fleet operational Navy Tactical Data System (NTDS) computer programs aboard NRF FFG-7 combatants. This support consists of resolution of Program Trouble Reports (PTRs), implementation of required operational software updates, and subsequent dissemination of tactical operational software tapes to the FFG-7 platforms.

Search Radar Maintenance - provides for major maintenance and repair of the search radars installed on NRF ships and craft. Equipment is removed from ships as necessary and shipped to the appropriate repair facility for restoration. Requirements are based on replacement commitments to specific ships during SRA periods and on time usage factors. Estimates also include support to assist in repairs of radar casualties aboard NRF ships with these estimates based on historical experience from search radar performance data. Restored material provides equipment for approximately twenty-five percent of the cost of new procurement.

II. Force Structure Summary. The following table compares year end ship inventory of FY 1994 through FY 1997:

Hull Type	FY 1994	FY 1995	FY 1996	FY 1997
CV	0	1	1	1
MCS*	0	1	1	1
FFG	16	14	10	10
LST	0	2	2	2
MHC	0	1	3	7
MCM	0	2	4	4
	<hr/>	<hr/>	<hr/>	<hr/>
Total Naval Surface Reserve Force	16	20	21	25

* The MCS is in conversion status during FY 1995 and is not considered part of the ship count.

DEPARTMENT OF THE NAVY
OPERATION AND MAINTENANCE, NAVY RESERVE
FY 1996/1997 BUDGET ESTIMATES

Budget Activity: 4 - Administration and Servicewide Support

I. Description of Operations Financed. This Budget Activity provides for general and administrative services not specifically assignable to combat or combat support units. It includes the costs of the Reserve management headquarters, civilian and military manpower and personnel management, Servicewide communications capabilities, base support, and intelligence programs.

II. Force Structure Summary. The Naval Air Reserve Force consists of one carrier air wing with a total of eight squadrons, two long-range ASW patrol wings with a total of nine squadrons, one helicopter wing with eight squadrons, one air logistics wing with twelve squadrons, and three detachments. The Fourth Marine Corps Air Wing (4th MAW) consists of seventeen flying squadrons and supporting units which are budgeted for and maintained by Commander, Naval Reserve Force.

The Naval Surface Reserve consists of Combat Operations Support and Special Combat Support Forces. Combat Operations Support Forces consist of Naval Reserve Contingency Engineering Program Units and Naval Facility Construction Units (SEABEES), Security Group, and Ordnance Handling Activities (Explosive Outload Teams). Special Combat Support Forces include Mobile Mine Assembly Groups, Amphibious Construction Detachments, Assault Craft Units, Mobile Undersea Warfare Units, Cargo Handling Battalions, Explosive Disposal Units, Navy Beach Groups, and Mobile Diving and Salvage Units.

The following table compares year end ship inventory of FY 1994 through FY 1997:

Hull Type	FY 1994	FY 1995	FY 1996	FY 1997
CV	0	1	1	1
MCS*	0	1	1	1
FFG	16	14	10	10
LST	0	2	2	2
MHC	0	1	3	7
MCM	0	2	4	4
	===	===	===	===
Total Naval Surface Reserve Force	16	20	21	25

* The MCS is in conversion status during FY 1995 and is not considered part of the ship count.

The Combat Operations Support Forces are composed of several related but distinct programs. The programs financed include: Construction (SEABEES) Forces, Cryptologic Activities (Security Groups), Intelligence Training Activities, Ordnance Handling Support Activities (Explosive Outloading Teams), and Special Combat Support Forces. The Special Combat Support Forces include Mobile Mine Assembly Groups (MOMAGS), Amphibious Construction Detachments, Beachmaster Units (BMU), Assault Craft Units (ACU), Mobile Inshore Undersea Warfare (MIUW) Units, Underwater Demolition Teams (UDT), Cargo Handling Battalions (CHB), Explosive Ordnance Disposal (EOD) Units, Navy Beach Groups (NBG), and Mobile Diving and Salvage Units (MDSU).

DEPARTMENT OF THE NAVY
OPERATION AND MAINTENANCE, NAVY RESERVE
FY 1996/1997 BUDGET ESTIMATES

Budget Activity: 4 - Administration and Servicewide Support
Activity Group: Servicewide Support

I. Description of Operations Financed.

This financing provides for general and administrative services not typically assigned to combat support units. It includes the costs of the Reserve Management Headquarters, civilian and military manpower and personnel management, servicewide communications capabilities, and General Defense Intelligence Programs (GDIP).

Reserve Administration encompasses the operation of the Director of Naval Reserve (Office of the Chief of Naval Operations) and the Commander, Naval Reserve Force (New Orleans, LA) headquarters. These headquarters provide policy, control, administration, and management direction including the management of all resources (manpower, hardware, facilities, and funding) assigned to effect an optimum training posture, mobilization readiness, and contributory support. Headquarters funding provides civilian salaries and administrative support including consumable supplies, office services, and travel.

Reserve Servicewide Support includes civilian and military manpower and personnel management, the administration of civilian personnel, and military recruiting and advertising activities. The Naval Reserve Recruiting activities provide for the operation and maintenance necessary to support the Commander, Naval Reserve Recruiting Command; the recruiting operation costs of over 382 facilities located in all 50 states; efforts to recruit special categories of prior service and non-prior service officer and enlisted personnel for aviation, surface warfare, construction battalions, and medical units; and travel, lodging, and subsistence costs for personnel processed by the Military Entrance Processing Stations. The Naval Reserve advertising program is built around a national plan complemented by local advertising and an active public service campaign. The Naval Reserve relies on a media mix that includes radio, printed advertising, and direct mail campaigns to increase public awareness. In addition to program areas supported by national advertising, this effort supports officer and enlisted Training and Administration of the Reserves (TAR), and critical officer and enlisted programs through point-of-sale literature and local advertising funding. The advertising for each program area is designed to reach a specific target audience and the media mix is adjusted for maximum impact.

Budget Activity: 4 - Administration and Servicewide Support
Activity Group: Servicewide Support (Continued)

This activity group also includes servicewide communications associated with the Naval Computers and Telecommunications Command (NCTC) and automated data processing services unique to the Naval Reserve. Naval Reserve unique ADP functions include information systems support for:

- (1) Screening and assignment of Reserve personnel for mobilization.
- (2) Administration of personnel and medical records for non-participating Fleet Reserve and USN/USNR retired personnel.
- (3) Maintenance of retirement point credits.
- (4) Management of the Pretrained Individual Manpower Management System (PIMMS).
- (5) Reserve Standard Training and Administration Readiness Support (RSTARS) system which is the field support system for the Commander, Naval Reserve Force Units.
- (6) Reserve Headquarters Support (RHS) which provides information support to the manpower and personnel management areas.
- (7) COMNAVRESCUITCOM Integrated Recruiting Information Management Support (CIRIMS) which provides information support to the recruiting management area.
- (8) Reserve Financial Management/Annual Training Support (RESFMS) provides information support to training and financial management of the Reserve Personnel, Navy (RPN) appropriation.
- (9) Distribution and control of enlisted personnel on active duty in the TAR program.
- (10) Processing of inactive Reserve retirements, resignations, and other discharges.
- (11) Inactive Manpower and Personnel Information System (IMAPMIS) which involves collection, processing, maintenance, and dissemination of manpower and personnel information of the Inactive Force.

Other base operations support includes funding for the Naval Support Activity (NSA) New Orleans, which as host, provides support services for all commands located aboard Naval Support activity. The Services provided are comprised of:

- (1) Supply functions/tasks including procurement, receipt, and storage.
- (2) Security.
- (3) Purchase and distribution of utilities.
- (4) Other Engineering support includes Public Works administration, engineering services, custodial services, refuse/garbage collection and disposal, snow removal, movement of personal effects of military families (intra-station) moves, and equipment inspection.
- (5) Operation of food service facilities, BOQs/BEQs, Chapel, and MWR activities to include Child Care and Youth Centers.
- (6) Maintenance and repair of facilities and grounds.

Budget Activity: 4 - Administration and Servicewide Support
Activity Group: Servicewide Support (Continued)

This activity group also includes Servicewide support for accounting services procured from Defense Finance and Accounting Service, procurement and distribution of organizational clothing, and the day to day operation of the Naval Reserve Management School.

II. Force Structure Summary. The Naval Air Reserve Force consists of one carrier air wing with a total of eight squadrons, two long-range ASW patrol wings with a total of nine squadrons, one helicopter wing with eight squadrons, one air logistics wing with twelve squadrons and three detachments. The Fourth Marine Corps Air Wing (4th MAW) consists of seventeen flying squadrons and supporting units which are budgeted for and maintained by Commander, Naval Reserve Force.

The Naval Surface Reserve consists of Combat Operations Support and Special Combat Support Forces. Combat Operations Support Forces consist of Naval Reserve Contingency Engineering Program Units and Naval Facility Construction Units (SEABEES), Security Group, and Ordnance Handling Activities (Explosive Outload Teams). Special Combat Support Forces include Mobile Mine Assembly Groups, Amphibious Construction Detachments, Assault Craft Units, Mobile Undersea Warfare Units, Cargo Handling Battalions, Explosive disposal Units, Navy Beach Groups, and Mobile Diving and Salvage Units.

2) Fuel	5		
D. Other Defense Business Operating Fund (DBOF)	(-1,273)		
E. FN Indirect	(0)		
F. Other Pricing Adjustments	(1,147)		
10. Functional Transfers			-1,267
A. Transfers In	(1,510)		
1) Intra-Appropriation	773		
a. Transfer for Telephone Services (APTS) at Dallas, TX from COMNAVRESFOR to COMNAVCOMTELCOM.	468		
b. Transfer for Telephone Services (APTS) at Willow Grove, PA from COMNAVRESFOR to COMNAVCOMTELCOM.	305		

\$ in Thousands

2) Inter-Appropriation	737
a. Decentralization of Naval Facilities Engineering	237
Command funding for the execution of O&M,NR funded repair	
maintenance, minor construction, environmental, and	
facilities service contracts.	
b. Decentralization of DSN payments.	500
B. Transfers Out	(-2,777)
1) Intra-Appropriation	0
2) Inter-Appropriation	-2,777
a. Consolidation of all PSA/PSDs within the Fleets.	-2,777
PSA/PSD New Orleans and 2 detachments	
transferred to CINCLANTFLT.	
11. Program Increases	6,256
A. Annualization of FY 1995 Increases	
1) Execution/Fact of Life changes - Increase support	602
annualization of civilian work years and salaries	
associated with IMAPMS (+16 W/Y).	
B. One-Time FY 1996 Increases	
1) MRP - Repairs to Building 71 (Warehouse) at Naval Support	114
Activity.	
C. Other Program Increases in FY 1996	
1) One additional workday.	113
2) Increase to fund the Joint Logistics Systems Center.	2,200
3) Increased customer costs for accounting services	374
provided by Defense Finance and Accounting Center.	
4) Infrastructure improvements to support increased	221
requirements of new SeaBee SAM program.	
5) Increase in contractor support for FIP Servicewide help desk.	446
6) RESCOMMS - Acquisition of ADP equipment and	287
supplies and increased equipment maintenance due to	
warranty expiration.	

\$ in Thousands

7) Maintenance contracts for ADP equipment as warranty expires.	187
8) Increase in contractor support for maintenance of the RESCOMSIS system.	365
9) Bachelor Quarters - Implementation of CNO's bachelor quarters quality of life initiatives including "whole room concept" at Naval Support Activity New Orleans, LA.	1,197
10) Increase in 1 civilian workyear for environmental staffing at Naval Support Activity, New Orleans.	56
11) Increase in printing and supplies due to copier lease through Defense Printing and Publication Service Office (DPPSO).	59
12) Reserve Allied Medical Program (RAMP) - funding for 15 additional students.	35
12. Program Decreases	-5,057
A. Annualization of FY 1995 Decreases	
1) Infrastructure changes - Decrease reflects reductions in civilian personnel compensation and support costs due to downsizing. Also, a decrease in contractual support will occur in order to pay authorized civilian pay raise (-2 W/Y).	-173
B. Other Program Decreases in FY 1996	
1) Reduction of Management Headquarters staffing.	-103
2) Reduction in scope of janitorial contract.	-51
3) Decrease in Separation/Incentive pay for civilian personnel.	-122
4) Represents a minor decrease in supplies and material that support management for reserve personnel, (Baseline: \$98K).	-5
5) Decrease in consulting services for development and modernization as Reserve Command Management Information System moves into maintenance mode.	-455

\$ in Thousands

6) Savings due to move from leased spaces to government spaces.	-193
7) Funding for Reserve Financial Management System (RESFMS) processing transferred to DFAS.	-2,911
8) Decrease in printing of the Register of Retired Commissioned and Warrant Officer Regular and Reserve of the United States Navy and Register of Commissioned Officer of the United States Naval Reserve, (Baseline: \$26K).	-24
9) Reduced Disability Compensation claim payments.	-13
10) Decrease in resources required to maintain the base telephone support program at Naval Air Station New Orleans and Naval Support Activity New Orleans.	-359
11) Decreased requirement for supplies and materials.	-30
12) Reduction in equipment maintenance contract resources obtained by contract negotiation for fewer maintenance calls on equipment.	-28
13) Decrease in resources available for equipment replacement.	-20
14) Decrease reflects efficiency of operations gained gained from centralized control of APTS.	-173
 C. Execution/Fact of Life:	
1) The decrease in the E-2C computer program reflects reduced support of the resolution of Program Trouble Reporting effort for the Air Tactical Data Systems (ATDS). The decrease in the MCM Maintenance Support program reflects reduced maintenance support for combat systems of the MHC, (Baseline: \$2,962K).	-397

16. Program Increases

A. Other Program Increases in FY 1997

1) Increased customer costs for accounting services

provided by Defense Finance and Accounting Service.

2) Implementation of the National Command and Control

System for the Naval Reserve Intelligence Command.

3) Printing of the Register of Retired Commissioned and
Warrant Officer Regular and Reserve of the United States Navy
and Register of Commissioned Officer of the United States
Naval Reserve.

553
228
32

\$ in Thousands

4) Service contract for Inactive Ready Reserve Screening and personnel records. Increase results from additional records being maintained due to downsizing.	821	
5) Additional funding required to properly maintain existing equipment and for equipment replacement.	48	
6) Increase Disability Compensation claim payment.	2	
7) Execution/Fact-of-Life Change - In the E-2C Technical Support program, the increase reflects additional support to the resolution of Program Trouble Reporting effort for the Tactical Data Systems (ATDS), (Baseline: \$2,648K).	25	
		-1,715
17. Program Decreases		
A. Annualization of FY 1996 Decreases		
1) Infrastructure change - Decrease reflects continuing civilian personnel downsizing.	-59	
A. One-Time FY 1997 Increases		
1) Stabilization of new SeaBee SAM program following implementation costs in FY 1996 and reduction in recruiter support due to decreased recruiter locations.	-208	
B. Other Program Decreases in FY 1997		
1) Reduction to Management Headquarters staffing.	-258	
2) Reserve Allied Medical Program (RAMP) - Program decrease reflects affordability of pricing.	-6	
3) Represents a decrease in supplies, material, and equipment purchases that support management for reserve personnel, (Baseline: \$96K).	-6	
4) Decrease in ADP equipment/software acquisition, and consulting services for Reserve Command Management Information System.	-217	
5) Savings reflect movement from leased spaces to government spaces.	-207	

\$ in Thousands

- 6) Decrease resources required to maintain base telephone support program at Naval Air Station New Orleans and the Naval Support Activity New Orleans. -31
- 7) Decreased requirement for supplies and materials. -12
- 8) Decrease in resources available for equipment replacement. -13
- 9) Bachelor Quarters - Initial implementation costs for furniture replacement for whole room concept. -531
- 10) Savings realized as a result of Defense Switched Network (DNS) consolidation. -24
- 11) Force Structure Change - In the MCM Maintenance Support program, the decrease reflects less support for MCM and MHC ships, (Baseline: \$2,657K). -43
- 12) Decrease based on decentralized funding for the Joint Logistics Systems Center. -100

New Programs in O&M, NR Appropriation
(Dollars in Thousands)

Identification and Description	FY 1994	FY 1995	FY 1996	FY 1997
o LST class ships	0.0	7.0	16.9	17.0
- Two LST class ships (received in FY 1995 with partial year funding) will be fully funded in FY 1996.				
o CV-67	0.0	0.0	47.5	37.9
- The USS John F. Kennedy leaves the Philadelphia Naval Shipyard and transfer to the NRF in September 1995. The ship will be operational in FY 1996 and deploy in FY 1997 (budgeted at 31 steaming days per quarter).				
o MCM and MHC class ships	N/A	N/A	N/A	N/A
- Two MCM and MHC class ships will transfer to the NRF in FY 1996. Four MHC class ships will transfer in FY 1997.				
o Other significant force changes				
- An LPH class ship, the USS Inchon, will convert and transfer to the NRF in FY 1996 as the Navy's first mine control ship (MCS) ship.				
- One E-2 Hawkeye squadron will commission in FY 1996 to support counternarcotics missions.				
- F-5 aircraft will be added to VFC-13 to support the adversary mission in FY 1996.

Real Property Maintenance Activities
 FY 1996/1997 OSD Budget Submission
 Major Repair/Major Repair with Concurrent Minor Construction Projects
 (Costing more than \$500,000.00)

State	Location/Installation	Project Title	(\$000) Cost
HI	N&MCRESCEN Honolulu	Whole Center Repair Project Project repaired the roofing of three wings and lighting system, installed air conditioning in main wing, upgraded the electrical distribution system, renovated the interior of the facility, and painted the interior and exterior.	\$1,109
LA	NAS New Orleans	Repair Runway 14-32 Project restored the surface of runway to NAVFAC standards.	\$857
LA	NAS New Orleans	Repair Taxiways A,C,D, and E Project restored the surface of taxiways to NAVFAC standards.	\$565
PA	NAS South Weymouth	HVAC Rehabilitation Bldg 117 This project has provided the required strict environmental conditions for testing and repair of sensitive equipment.	\$660
PA	NAS South Weymouth	Aircraft Parking Apron Repairs This project has restored the surface parking aprons to NAVFAC standards.	\$562
PA	Naval Air Station Willow Grove	Repair Fire Alarm System HVAC, and Facility, BLDG 140 Project upgraded the electrical, mechanical, lighting and fire protection systems to meet current building and safety codes and made miscellaneous architectural repairs.	\$966

LA	Naval Support Activity, New Orleans	Repair to Timber Wharf, 390	\$738
	This project has repaired sections with structural deficiencies and restored SBU 22 small boat landing facilities.		
LA	Naval Support Activity, New Orleans	General Repairs to BEQ 703	\$640
	This project has modernized this structure through the repair and/or replacement of light fixtures, carpet, tile, and plumbing fixtures; upgraded the electrical distribution and air conditioning systems; and painted the entire interior.		
LA	Naval Support Activity, New Orleans	Repair Parking Areas Westbank	\$624
	This project has repaired and restored surfaces of parking areas.		

FY 1994

Total Minor Construction	224
Total Repair and Maintenance	6,497
Total Active Installation	6,497
Total Inactive Installation	0
Grand Total FY 1994	6,721

Exhibit OP-27P

FY 1995 Projects

State	Location/Installation	Project Title	(\$000) Cost
MS	Meridian Naval Air Station	Convert Barracks 206 to Naval Reserve Center This project will renovate and upgrade facility and mechanical systems.	\$825
LA	Naval Air Station, New Orleans	Repair Primary/Secondary Electrical Distribution Project will upgrade the electrical distribution system by installing switching gears, panels, and circuit breakers.	\$1,408
MD	Naval Air Facility, Washington	Replace Chilled/Hot Water Circulating System and Sanitary Piping, BLDG 1692 Project will remove and replace the existing corroded and deteriorated dual temperature piping and the sanitary sewer system.	\$554
MN	Naval Air Reserve Center, Twin Cities	Whole Building Repair, Bldg P4 This project will upgrade the HVAC, electrical distribution, interior and exterior lighting, and security systems; replace ceiling tiles; paint the entire interior; and improve the energy efficiency of the structure by providing additional insulation.	\$1,677
PA	Naval Air Station Willow Grove	Repair Runway lights Project will correct runway lighting deficiencies by repairing and realigning the lighting system and by providing an emergency back-up power source.	\$600
PA	Naval Air Station Willow Grove	Repair South Lean-To Hanger 80 (Phase II) Project will modify interior partitions; realign lighting, ducts, fire protection, and sprinkler systems; correct plumbing and sanitary drainage; and repair secondary electrical distribution system. Facility will meet building and safety standards when project is completed.	\$1,900
PA	Naval Air Station Willow Grove	Repair Fire Protection Distribution System, Hanger 80 Project will install a dedicated foam pumping station and water storage tanks for this facility.	\$700

RY 1995 Projects (continued)

WA	NMCRESSESEN Spokane	Whole Center Repair Program	\$1,216
	Project will upgrade the boiler, air conditioning, fire, security, and electrical distribution systems; repair the rest room facilities; and improve the energy efficiency of the structure by providing additional insulation.		
PA	Naval Air Station, Willow Grove	Interior Repairs Bldg 172, BEQ 5	\$600
	This project will renovate the interior facility, replace floor tiles and light fixtures, upgrade bathrooms, and install drop ceilings.		
PA	Naval Air Station, Willow Grove	Bituminous and concrete repairs, runway 15/33	\$2,400
	This project will restore the surface of runway to NAVFAC standards.		
MN	Naval Air Reserve Center, Twin Cities	Roof Repair, Hangar P-1	\$557
	This project will clean downspouts, split blisters, press tabs and nails, and apply PERMAPLY and PERMAROOF coating over the entire roof.		
MA	Naval Air Station, South Weymouth	Install Foam/Water Deluge System Hanger 2	\$692
	Project will install a deluge form/water sprinkler system and fire evacuation alarm system.		

FY 1995 Projects (continued)

MA Naval Air Station, South Weymouth Replace R/W 26 Approach \$632
Lighting System Components

Project will replace the strobe lights, towers, sealed beams, control regulators distribution transformers and power panels, switches, main timer, relays, lightning arresters, and alarm system.

IL Forest Park Various Repairs, Building 100 \$959

Project will upgrade electrical distribution and HVAC systems; repair three heads, shower rooms, and leaking water lines; replace windows, masonry closures, light and plumbing fixtures; and the interior and exterior doors and hardware.

FY 1995

Total Minor Construction	856
Total Repair and Maintenance	13,864
Total Active Installation	13,864
Total Inactive Installation	0
